Objective

Proactive self-motivated Sitecore Developer excels in .Net framework and .netcore development of web portals. Possesses excellent communication skills and a strong analytical mind.

Professional Summary

- 8+ years of Experience in design and development of client/server, web based and n-tier application
- Have worked Sitecore 9.1.1 , 7, 8.2 versions.
- Have a strong experience in Object Oriented Programming concepts.
- Developed web and REST services within greater project schemes using Dependency Injection Pattern.
- Knowledge in developing Microservices ,Helix principles, windows applications, web applications, windows services and web services in Microsoft Visual Studio .Net
- Experience in Designing and developing Complex Modules
- Lead development aspects of Sitecore SXA projects using Agile methodology.
- Experience in Sitecore JSS and GraphQL
- Experience in design, development & implementation of web-based applications on Dot Net.
- Experienced with developing high capacity n-tier applications.
- Have strong debugging and problem solving skills.

Skills

- **Technology :** Web and Windows Application Development
- **Technical Skills :** C#, MVC Framework 4.5, Entity Framework 5.0, .Netcore ,Azure Fundamentals
- **Web Technologies:** ReactJs, HTML, CSS, Ajax, Rest API
- **Database :** MySQL
- **Tools :** Visual studio 2012, Sitecore 6.6, 7.2, 8.1,9.1.1, Soap UI, Fiddler, IIS,Swagger
- **Domain Knowledge:** Healthcare, Insurance, Retail, Hitech

Tata Consultancy Service Ltd (NOV 12 to Nov'16)

I started my career in Tata Consultancy Services as Assistant System Engineer.
My role is to develop web application using MVC and Sitecore and Rest APIs.

Projects

1) A Healthcare Company(March 2013- June 2015)

Role: Developer

Tools: Visual Studio 2012, Sitecore 7.2

Skills: HTML5, CSS3, C#, MVC framework.

Responsibilities / Contribution

- Write code, configurations, and use tools necessary to implement owned areas of Sitecore and .NET web applications
- Manage all development aspects of Sitecore projects using Agile methodology.
- Be able to produce and write clear technical and user documentation as required to support the solutions
- Attended client review meetings and presentations to gather development related information.
- Developed, coded and reviewed Sitecore CMS web programs.
- Conducted routine maintenance tasks to debug errors and restore functionality of applications.
- Carried out primary troubleshooting activities in production and test environments.

2) An Insurance Company(June 2015- Nov 2016)

Role: Developer

Tools: Visual Studio 2012, Sitecore 6.2, Saop UI 5.2.0, Fiddler

Skills: C#, Entity Framework 5, MVC 4.5, jQuery.

Responsibilities / Contribution

- Experienced with developing high capacity n-tier applications.
- Good knowledge of AutoMapper, Ajax and Java scripting.
- Extensive design and coding using C#.
- Integrated Sitecore with backend systems and provided user controls.
- Developed web and REST services within greater project schemes.
- Coordinated with departments.
- Carried out primary troubleshooting activities in production and test environments.
- Deploying web application in different environment

Cognizant Technology Solutions(Nov 2016 to Nov 2017)

3) A Retail Company

Role: Developer

Tools: Visual Studio 2015, Sitecore 8

Skills: C#, MVC 4.5, SQL.

Responsibilities / Contribution

- Working on multisite Sitecore Project.
- Developing components using sitecore out of the box feature

- Integrating Sitecore with Data Layer.
- Requirement gathering to project.
- Integrating with third party SSLO Gigya
- Working with Coveo search.

Mindtree (Nov 2017 to Present)

4) A Retail Company

Role: Lead, Developer

Tools: Visual Studio 2017, C#, Sitecore 8.2, 9.1.1, Sql Server 2008, Saop UI, Windows Services .

Skills: C#, MVC 4.5, SQL , Sitecore JSS

Responsibilities / Contribution

- Setting up Habitat structure project from scratch.
- Developed web and REST services within greater project schemes.
- Requirement gathering to project
- Analyzing and design complex modules
- Deploying in different environment.
- Developing Windows services, Scheduler
- Salesforce integration
- Working on multisite Sitecore Project.
- Working and configuring on Solr search
- Working SitecoreJSS and GraphQL
- Working on Integration with commerce.
- Working on Azure search/Solr search.
- Updating confluence page for design document.
- Working on headless implementation if Sitecore.
- Developing POC for microservices for ecommerce website
- Creating Workflows, Roles, Users.

Accomplishments

- Delivered complex modules independently
- Client's appreciation for delivering good work.
- Best team member award.

Education

B.E in Electronics and Communication Engineering with a CGPA of **8.98**

College: Basaveshwar Engineering College, Bagalkot, Karnataka, India(VTU).

PUC (Department of pre-university education, Government of Karnataka.) With **70%** aggregate.

College: BVVS Independent pre-university College, Bagalkot-587101.

SSLC (Karnataka secondary education examination board) with **88.32%**aggregate. **School:** St. Anne's Convent High School, Bagalkot.

I hereby declare that the above-mentioned information is true to the best of my knowledge.

. **Place:** Bangalore
